(1) Interface and Control

Interface

Tkinter

Parameter configuration and collection monitoring

Scheduler

Automatic execution of collections at defined intervals

(2) Collection and Processing

Collection Module

Selenium

Chrome WebDriver

Automated navigation and site access

Automation

Automatic navigation and data extraction from pages

Validation

Verification and processing of collected data

Fare query

Data obtained

LATAM Website

Airfare portal

(3) Storage

Google Sheets

Storage of collected data

Automatic synchronization

EXCEL

Data export for analysis and experiments
